EmLogis and Work Software Systems Enter into VAR Agreement

HOUSTON, Texas, January 10, 2006— EmLogis, Inc., the provider of breakthrough solutions for human resource planning and scheduling, announced today the signing of a Value Added Reseller (VAR) agreement with Work Software Systems (WSS), a world-class retail POS software solution provider.

"The integration of the EmLogis GENERATOR™ solution with the WSS Retail Management System will deliver to retailers the human resources functionality required for a successful retail establishment," said Martin Estill, CEO of EmLogis, Inc. "EmLogis is proud to be working together with WSS, who has proven their ability to develop and deliver one quality retail software solution after the other."

The WSS Retail Management System delivers a powerful integrated solution to over 3,200 wireless phone and home décor retail centers across the country. The addition of the EmLogis scheduling system expands the system to deliver to clients a fully integrated competitive advantage.

"We are excited about adding this offering to our suite of services," said Bill May, Founding Partner of WSS. "Our goal in working with EmLogis is to enhance the business intelligence power of our retail management system. The EmLogis GENERATOR will immediately provide our clients with a superior human resource planning and scheduling tool that will enable them to better manage how, when and where they distribute their staffing resources."
